Birding

VOL. 39 • NO. 4 • JULY/AUGUST 2007

In this issue: What are the actual mental processes that lead from observation to identification? How do we integrate habitat cues, behavioral subtleties, and a bird's "body language" in the identification process? And what causes us to make mistakes sometimes? Cover photograph: **Hermit Thrush**, Cape May, New Jersey; 4 November 2006. © Kevin T. Karlson. More information on the cover photograph available online <aba.org/pubs/birding/archives/vol39no4p5w1.pdf>.
